

GM&B Today

GM&B Context

Introduction

The 100RC process includes developing the local area context. The context is a **holistic scan of resilience**.

The team developed an actions inventory, collected opinions on resilience, and analyzed demographic data to understand challenges and opportunities.

The following information helps to frame and inform the resilience priorities.

Top Stresses

GM&B Context

Shocks + Stresses

Sea Level Rise

- **Sea level has risen about three inches** since Hurricane Andrew hit and is **expected to rise another three to seven inches** by 2030.
- Much of the development in GM&B is close to sea level. More than 85,000 people and 53,000 homes are located on land **less than three feet above high tide**. More than \$21 billion in assets are at risk.
- Man-made and natural systems, such as beaches and mangroves, will be affected as sea level continues to rise, likely resulting in **increased damage from floods and storms**.

“As sea levels rise, the risks of flooding increase. Higher sea level results in higher high tides, storm surges, and inland flooding due to higher groundwater levels.” —Young professional

GM&B Context

Shocks + Stresses

Flooding

- King tides are becoming **higher** according to tidal gauges.
- While stronger **building codes** have helped protect newer buildings from storm surges, risks are more costly today due to higher water levels and increased development in vulnerable areas.
- GM&B has an **intricate water management system** overseen by local government and the South Florida Water Management District (SFWMD).
- Heavy **rain events** or high water levels can strain stormwater systems and lead to flooding.

King tides occur when the orbits and alignment of the Earth, moon, and sun combine to produce the greatest tidal effects of the year

King tides bring unusually high water levels, and they can cause local tidal flooding. Over time, sea level rise is raising the height of tidal systems.

- Restoration of the **Everglades and Biscayne Bay** is key to providing fresh water, providing natural buffers from flooding, and protecting critical ecosystems.
- Natural systems worldwide are **strained by climate change** and urbanization.
- Two thirds of Miami-Dade County land area are **protected lands**, e.g., National Parks, Marine Sanctuaries, and Water Management Areas. This has resulted in concentrated development.
- **Limited open space** in urban environment can exacerbate flooding risks and limit adaptation options.
- Protections provided by offshore reefs and other **marine systems are degrading** due to ocean acidification and warming.

*“Beach
renourishment
is an economic
issue.”*

—Coastal Mayor

GM&B Context

Shocks + Stresses

Water Management

- **Rising sea levels and groundwater levels** require a delicate balance between retaining and infiltrating freshwater to recharge aquifers and draining freshwater to manage flooding risks, all while trying to improve **water quality**.
- Water, sewer, and drainage systems need to be redesigned, rebuilt, and maintained, with acknowledgement of **accelerating sea level rise** and the potential for higher **storm surges** and heavy rainfall events.
- Seasonal agriculture will continue to require careful **water management**, especially given saltwater intrusion into underground aquifers.

“Trying to identify inexpensive temporary solutions while seeking funding for permanent solutions.” —Inland mayor

“..using infrastructure to build community cohesion...” —Coastal mayor

GM&B Context

Shocks + Stresses

Housing

- **Housing cost burdens have risen dramatically.** Average rents increased 65% (from \$1,505 in 2009 to \$2,501 in 2015).
- In 2014, over 66% of renter households, and over 50% of owner households were **cost-burdened**, making it the **third least affordable housing market** in the nation.
- The local housing market is affected by external, often **seasonal/absentee buyers**.
- Cities of Miami Beach and Miami are **densely populated**.
- Inland communities, such as Doral and Kendall, are experiencing **increased mixed-use development**.
- **Housing rights for tenants are lacking.**

“Foreign investments have been great for the economy but have negatively impacted housing affordability.”

—Inland mayor

“Middle-America sprawl codes are keeping housing prices up.” —inland mayor

GM&B Context

Shocks + Stresses

- Homelessness has increased **2%** since 2015 and **9.5%** since the beginning of 2017.
- The Miami-Fort Lauderdale-West Palm Beach metros have one of the **highest foreclosure rates** in the nation.
- Approximately **29,000 new luxury residential** units have been built since 2010.
- Miami-Dade County and Cities of Miami, Hialeah, North Miami, Miami Beach, and Homestead **receive funding from HUD for affordable housing** which is expected to be cut significantly.

Housing

“Many waitlisted for housing assistance.”

—Inland mayor

“There is much fraud and many assessments associated with high-rise developments.”

—Coastal mayor

“There is no housing for young people.” —Inland mayor

GM&B Context

Shocks + Stresses

Mobility

- GM&B is the sixth most **congested** county in the U.S.
- **Connected, reliable transportation is needed** between residential areas and jobs.
- **Perceptions about transit** need to change for more widespread ridership; “transit is for the disenfranchised.”
- **Rideshare is disrupting** existing travel services/patterns.
- Public transit concerns include **safety, cleanliness, and reliability.**

“A better quality of life is tied to more efficient transportation... Young generations want it... People don’t want to rely on private automobiles.”

—Coastal mayor

GM&B Context

Shocks + Stresses

- Pedestrians and bicyclists feel unsafe competing with vehicles.
- Transit **ridership is declining** in many areas.
- Transportation is planned and managed by **multiple organizations**.
- **Funding** is needed for operations and maintenance of transportation infrastructure.

Mobility

*“.. 700,000 cars go through
Coral Gables daily...”*

—Inland mayor

*“Can’t get people to flex on
parking requirements”*

—Inland mayor

GM&B Context

Shocks + Stresses

Economy

- Though unemployment dropped from over 12% to under 5% from 2009 to 2015, 55-61% of Miami-Dade County **earn less than a living income or struggle to pay for basic needs** due to the preponderance of lower wage jobs and high cost of living
- 51% of households have **insufficient liquid savings** to survive for 3 months at poverty level in the event of unexpected job or income loss
- The top three economic engines, **Miami International Airport, PortMiami, and Tourism**, are based on transient services and transient population.
- The **agriculture industry** is a large component of the local economy.
- **GM&B lacks a diversified economy.**
- Job placement can be difficult for **many residents battling barriers such as low education rates and skillsets needed for a changing economy.**

“We need to foster a more diverse economy in less vulnerable areas.”

—Inland mayor

“Agriculture is at the mercy of national policies.”

—Inland mayor

GM&B Context

Shocks + Stresses

- There is **opportunity for more collaboration** amongst social service organizations for streamlining and improved services
- The **homeless population** is no longer just “people on the street”; it also includes recent graduates and an aging population. **15% of the homeless population** is undocumented.
- Five out of ten people make too much to qualify for assistance, but **not enough to live.**
- **Access to quality and affordable childcare** is difficult.
- The Department of Health is concerned about the undocumented **population not accessing health services.**
- The **aging population** struggles to afford their homes, putting stress on extended family.
- Federal, state, and local **funding is uncertain, fragmented and limited.**

Social Services

“We are unable to break the cycle of continued disrepair and poverty.”

—Inland mayor

“Many on fixed incomes are reliant on government support...we fear social unrest if it doesn't meet people's needs.”

—Coastal mayor

GM&B Context

Shocks + Stresses

- Florida schools are **significantly under funded** as compared to other states. The state ranks 48th for funding in the country.
- Miami-Dade County Public Schools (M-DCPS) **graduation rates are increasing**, however has a challenge of **16% not graduating** from high school on time.
- It's a challenge to **attract and retain quality educators due to high costs of living**.
- M-DCPS has the highest **student refugee population** in the country and offer **bilingual education**.
- One in five children attend **private schools** in GM&B.
- As of 2017, there are **no "F" rated schools** in M-DCPS.
- There are **increasingly fewer vocational programs** in public schools.
- M-DCPS is a national leader in magnet schools.

K-12 Education

"Schools are overcrowded in NE Miami-Dade."

—Inland mayor

"Education is a major determinant for relocation of young families."

—Young professional

GM&B Context

Shocks + Stresses

Universities

- Three primary universities are **FIU, University of Miami (UM), and Miami-Dade College (MDC)**.
- The combined enrollment of these universities and other local universities are approximately **240,000 students each term**.
- There is **strong collaboration** amongst the universities to move resilience forward with GM&B.
- **One Community One Goal's Academic Leaders Council** aligns with the business community to align worker availability.
- Florida Climate Institute is a multidisciplinary network of 10 universities that **collaborates to find a better understanding of climate variability** and change.

“Local universities lack investment in the community.”

—Focus group participant

“Recent graduates are finding job placement elsewhere, where they can afford to live.”

—Current student

GM&B Context

Shocks + Stresses

Juvenile Crime

- Although violent crime has decreased, **property crime is increasing.**
- There has been an 80% **reduction in overall juvenile crime** over the last 20 years.
- There is an **increase in firearms** in juvenile age group.
- **There is a lack of accessible and affordable services** to address long term impacts of mental health, substance abuse, and family support services.
- Overall crime is decreasing; however, **isolated pockets** remain in which the majority of juvenile offenders reside.

“Gangs are not based on race or culture, instead on a block-by-block basis.”

—Safety professional

GM&B Context

Shocks + Stresses

- GM&B has the **highest Affordable Care Act enrollment** in the U.S.
- **26% of Miami-Dade County residents are uninsured.**
- Miami is ranked **#2 for the most HIV infections** and **#1 for the most HIV-related deaths** in the U.S.
- In 2015, **21.6% persons under 65 are without health care insurance**; 42% in 2011.
- Refugee Health Assessment Program used to average 300 people per day; the number is declining since **end of the wet foot/dry foot policy.**

Health

“People don’t understand the risk of not having regular health screenings.”

—Health professional

“Many people are more risk tolerant because of the issues they’ve faced in their origin countries.” *—City professional*

GM&B Context

Shocks + Stresses

- State declared a Public Health Emergency for the **opioid epidemic: 236 people fatally overdosed in MDC** from heroin/fentanyl in their blood from 2015 to November 2016.
- **Pool drowning** is the number one cause of death for children under five.
- The 2016 **Zika Virus** outbreak had 350 travel-related cases, 272 locally-acquired cases, and 44 unknown sources.

Health

“We are given money to fight, but not to prepare.”

—Health professional

“The Zika virus cost us millions.” —City professional

GM&B Context

Shocks + Stresses

Storms + Recovery

- **GM&B is vulnerable** to hurricanes and tropical storms.
- National Climate Assessment (2014) predicts **increased intensity and frequency of hurricanes** in the region.
- Increased development and population over the last 11 years without a major storm creates **uncertainties of evacuation, response, and long-term community recovery.**
- Power and **utility redundancy** is critical and unknown.
- **Communication and access** to residents are key.
- Residents and governments **lack funding preparedness.**
- **Storm and flood insurance** rates are increasing.
- **Absentee owners contribute to delayed recovery.**

“Communicating preparedness with residents is a challenge.”

—Coastal mayor

“Need unity throughout the county to address flood insurance.”

—Coastal mayor

GM&B Context

Shocks + Stresses

- **35 local governments** comprise GM&B.
- Intergovernmental **collaboration is not fully leveraged**.
- Harmonization and **alignment of codes and standards** is needed to address real property concerns such as land use, zoning, and sea level rise.
- Organizations need to improve their **knowledge of comprehensive data, plans, and resources**.
- Access and use of sea level rise-related **data is new and emerging** for many local governments and businesses.
- **Improved relationships** in and between governments would allow for stronger initiatives.

Collaboration

“Need centralized tools and structure to support small municipalities.”

—Inland mayor

“We need to cooperate as opposed to compete; we should take a holistic approach to problem solving.”

—coastal mayor

GM&B Context

Actions Inventory

Plans, Programs + Strategies

Actions

This City Resilience Framework is a 100RC Tool to categorize plans, programs, projects, studies, and initiatives. A total of 280 were identified throughout the engagement process. Of those, 100 were prioritized for consideration in future Resilient GM&B efforts, many of which are identified on the following pages.

GM&B Context

Sea Level Rise + Climate Change

Key Actions

- Adopted a **Green Sustainable Buildings Ordinance for new construction.**
- GM&B partners participate in the National Flood Insurance Program **Community Rating System (CRS)** Program, which recognizes floodplain management activities and have the following scores:
 - Unincorporated Miami-Dade County: 5
 - City of Miami: 7
 - City of Miami Beach: 6

“South Florida and Greater Miami & the Beaches have formed unique and progressive partnerships to plan and prepare for sea level rise and climate change.”

—Coastal Assistant City Manager

Sea Level Rise + Climate Change

- GM&B partners participate in the **Southeast Florida Regional Climate Change Compact**.
- The Compact successfully convened scientists to develop unified **sea level rise projections** for Southeast Florida.

Key Actions

Miami-Dade County Key Actions

- Currently performing a **vulnerability assessment of key infrastructure and capital investments**.
- The Miami-Dade County Water and Sewer Department is investing billions on **improving critical infrastructure**, and sea level rise is a key part of the design criteria.
- Miami-Dade County is developing additional **adaptation strategies** to address sea level rise.
- Miami-Dade County, in partnership with the SFWMD and the U.S. Army Corps of Engineers, works to restore, preserve, and protect the Everglades through the **Comprehensive Everglades Restoration Plan**.

Key Actions

Miami-Dade County Key Actions

- Currently partnering with the Urban Land Institute on a pilot **Adaptation Action Area** for the Arch Creek drainage basin.
- Currently working with Rand Corporation to **visualize how sea level rise and future land use decisions will impact flooding risks.**
- Working **collaboratively with the South Florida Water Management District** and municipalities to understand how sea level rise will impact the regional canal network.
- Investing in protecting the County's drinking water and actively monitoring and **managing any saltwater intrusion into the aquifer.**
- Created a **Sea Level Rise Task Force** who recommended that the County prepare an Enhanced Capital Plan to increase the resilience of the County's infrastructure.

GM&B Context

Sea Level Rise + Climate Change

Key Actions

BIM model for an electrical building for our South District Oxygen Production Consent Decree Project. It is a brand new building that will store transformers at the bottom and all switchgear at the top, about 16 feet high.

Key Actions

The City of Miami Key Actions

- Establishment of a **Sea Level Rise Advisory Committee** in 2015 and an interdepartmental **Resilient Infrastructure Committee** in 2017.
 - Partnering on a **Resilient Redesign for Shorecrest**.
 - Updating the City of Miami's **stormwater master plan** while implementing stormwater upgrades in highly vulnerable areas.
 - Creating a **rapid action plan for flood risk mitigation** of critical infrastructure.
 - Strengthening flood risk mitigation in the Future Land Use and Coastal Management elements of the City's **Comprehensive Neighborhood plan**.
 - **Proposed Miami Forever General Obligation Bond** includes \$193 million for flood risk mitigation and will be on the ballot in November.
 - The City's zoning code contains several standards aimed at **maximizing natural infiltration** of stormwater directly into the ground.

GM&B Context

Sea Level Rise + Climate Change

Key Actions

City of Miami Beach Key Actions

- Established a **Mayor's Blue Ribbon Panel** on Flooding and Sea Level Rise and a Commission Committee on Sustainability and Resiliency.
- Committing to investing half a billion dollars to **raise roads** and improve **stormwater drainage**.
- Updated the **land use and development code** to incorporate climate adaptation and resilience, including increased freeboard, base flood elevation, roadway, ground, and seawall heights.
- Recently completed a **vulnerability assessment for its infrastructure**.
- **Constructing green living shorelines** to complement sea walls.

“The City of Miami Beach has made a commitment to adapt to sea level rise, invest in aging infrastructure, and use the best available science to do so.”

—Coastal Assistant City Manager

GM&B Context

Sea Level Rise + Climate Change

Key Actions

Stormwater
Pump Station
UPGRADES

Key Actions

City of Miami Beach Key Actions

- **Maintaining extensive sand dunes** that minimize risk from storm surge and provide habitat.
- Developing **design guidelines for historic preservation** in the face of sea level rise and climate change.
- Developing unique and creative ways to help the community learn more, including an **Adaptation Calculator and dynamic Resilience Open Houses**.
- Conducting dynamic **surface/groundwater modeling**.
- Recently hosted the U.S. Conference of Mayors, and is internationally **recognized for its adaptation projects**.

“Our program delivers quality of life for residents and visitors today and provides for a sustainable and resilient tomorrow.”

—Coastal Assistant City Manager

GM&B Context

Housing

Key Actions

- The Miami-Dade County **Homeless Trust 10-year Plan** provides framework to locally end homelessness.
- The Miami-Dade County **Housing Surcharge Tax or MEEK tax** sets aside funding for affordable housing.
- Miami-Dade County Consolidated **Housing and Urban Development (HUD) Plan** outlines goals toward providing access and opportunity to attainable housing, social services, and jobs.
- Miami-Dade County is committed to working on a five-year plan to provide **affordable housing** in partnership with six entitlement cities, including the City of Miami and City of Miami Beach, by June 2018.
- Greater **Miami Chamber of Commerce Housing Taskforce** highlights opportunities for housing affordability.

Key Actions

- University of Miami's **Miami Affordability Project** is a tool to visualize neighborhood level housing market dynamics.
- The City of Miami Beach initiated **Innovative Housing Conversion Projects**.
- The City of Miami's affordable and attainable mixed-income and workforce **housing benefits ordinances**.
- **The City of Miami's Miami 21** is a form-based zoning code guide based on principles of New Urbanism and Smart Growth
- **Florida International University (FIU) Metropolitan Center** is an urban policy think tank and solutions center.
- **Liberty Square Rising** revitalization initiative is for the redevelopment of the Liberty Square Public Housing Project.
- Adopted a volunteer **Property Assessed Clean Energy Programs (PACE)** program.

GM&B Context

Key Actions

- Transit Planning Organization (TPO) completed a 2040 **Long Range Transportation Plan**.
- Miami-Dade County **Strategic Miami Area Rapid Transit (SMART) Corridor Plan** identifies six major corridors for proposed mobility solutions.
- **TPO's Land Use Study** determines how mobility networks interact with land uses.
- **TPO's Transportation Improvement Program (TIP)** identifies a list of upcoming transportation projects over a four-year period.
- Miami-Dade County **Metrorail Car Replacement Program** is a phased implementation plan to replace Metrorail Cars.

Mobility

GM&B Context

Key Actions

- Multiple, highly used Municipal **Trolley + Circular Systems** are operated and funded by the local governments.
- **Underline Project** is a planned 10-mile neighborhood park, urban trail, and living art destination underneath the existing Metrorail line.
- The City of Miami Beach Transportation Master Plan has a **Pedestrian First Strategy** component.
- City of Miami Beach built the city's first **protected bike lane** in Miami-Dade County.

Mobility

GM&B Context

Key Actions

- Miami-Dade County **Homeless Trust** oversees the **Homeless Plan** and provides funding support to provider organizations.
- City of Miami **A Comprehensive Center for Exceptional Student Services (ACCESS) Program** provides free individual tax assistance at parks and Neighborhood Enhancement Team (NET) Offices.
- **Career Centers** at Lindsey Hopkins and Camillus House.
- Summer Youth **Financial Empowerment & Employment Program**.
- City of Miami **Homeless Assistance Program (MHAP)** provides services to the homeless.

Social Services

GM&B Context

Key Actions

- United Way's **Asset Limited, Income Constrained, Employed (ALICE) Report** establishes populations in economic danger.
- **Beacon Council's One Community, One Goal Initiative** provides a roadmap for economic success.
- **CareerSource** works directly with business to connect them with people in need of jobs.

Social Services

GM&B Context

Key Actions

- Consortium for a Healthier Miami-Dade to act as a catalyst for healthy living.
- The Children's Trust funded **school-based health clinics**.
- The Miami-Dade County **Healthcare Preparedness Coalition** serves as a forum of healthcare organizations and supporting agencies.
- The Miami-Dade County **substance abuse task force** combats the ongoing drug epidemic.

Health

GM&B Context

Key Actions

- The **MetroLab** partnership with local universities is studying ways to help local government combat mosquito-borne illness.
- Miami-Dade County **funding operation model for mosquito control** improved to address Zika.
- **Mosquito repellent** was provided to vulnerable populations by local government organizations.
- Media and neighborhood **outreach campaigns about Zika** awareness were held.

Health

GM&B Context

Key Actions

- GM&B partners have **active social media** presences to distribute information and monitor potential risks.
- Miami-Dade County's **juvenile assessment center (JAC)** works to address and intervene prior to re-offense.
- Miami-Dade County is a leader in-state for **civil citations of juvenile offenders to avoid jail and offer rehabilitative services.**
- M-DCPS ended **out-of-school suspensions, reducing juvenile crime.**
- **The Children's Trust Together for Children Initiative** is a coalition formed to promote and address youth safety.
- Education, mentoring, and workforce development initiatives were formed with **5000 Role Models and Big Brothers Big Sisters.**

Juvenile Crime

GM&B Context

Key Actions

- After Hurricane Andrew, the **South Florida Building Code** transformed construction standards to ensure buildings stand up to storms. It was adopted by the entire **State of Florida**.
- **GM&B** has advanced **Urban Search and Rescue** teams, ready to deploy in the event of a major disaster recovery.
- **Local Mitigation Strategy (LMS)** Workgroup meets quarterly to coordinate and move disaster preparedness and mitigation funding.

Emergency Management

GM&B Context

Key Actions

- City of Miami's **72-hour initiative** prepares the community for hurricanes, terrorism, and active shooter events.
- American Institute of Architects Miami **Sea Level Rise (SLR) Task Force** are identifying opportunities to strengthen the Florida Building Code.
- City of Miami Beach **land use codes have been updated to take SLR projection into account and plan for climate adaptation.**
- The countywide **Recovery Plan** addresses policies that promote an all-hazards disaster recovery process amongst all stakeholders.

Emergency Management

GM&B Context

Intergovernmental Collaboration

Key Actions

- GM&B partners are members of the **Southeast Florida Regional Climate Change Compact**. Municipal working groups meet about important topics.
- **Seven50** is a blueprint for development in Southeast Florida and takes sea level rise into account.
- **Several leadership groups meet routinely, including: the Miami-Dade County Manager's Association, the Planners Technical Committee (PTC), and the Miami-Dade Police Chiefs Association.**
- GM&B partners are translating **resilience planning into budgeting and strategic planning.**

GM&B Context

Intergovernmental Collaboration

Key Actions

- Miami-Dade County **League of Cities** unites common interests of governments within the county.
- The Miami **Urban Area Working Group (UAWG)** establishes Urban Area policy and **Urban Areas Security Initiative (UASI)** funding allocation.
- Miami-Dade County **LMS Workgroup** meets quarterly to discuss disaster preparedness and mitigation funding.
- The **Transportation Planning Organization (TPO)** meets regularly to coordinate federal funding and prioritize capital projects.

GM&B Context

Case Study

Intergovernmental Collaboration

Miami-Dade County is vulnerable to a variety of hazards and the Comprehensive Emergency Management Plan establishes the framework for the County and its 34 municipalities to address these risks. The Plan outlines the intergovernmental roles and responsibilities. Each municipality is independently responsible for the safety of its residents and visitors with mutual aid support from the County.

The Local Mitigation Strategy (LMS) Working Group is made up of a broad stakeholder group including federal, state, and local government; private enterprise; private and public schools, colleges, and universities; hospitals; and not-for-profits. The Working Group meets quarterly to update the strategy which includes a countywide list of funded and unfunded projects which are tracked to monitor progress on risk mitigation and comprehensively address the impact the current and future hazards.

In addition to the LMS working group, the Whole Community Engagement Group is convened quarterly by The County's Emergency Management with representatives of the municipalities, universities/colleges and other County partners. The group is convened to discuss current issues, best practices, and inform and solicit feedback on current plans.

GM&B Context

Transient + Aging Population

ANNUAL POPULATION: GM&B has **2.7 million people** with **52% foreign-born**; 21% under age 18 and 15% over age 65; the **average age is 36 years old** and is expected to increase to 40 by 2030.

POPULATION
