## Park View Island Sewer System Dye Testing

Project Advisory: Wednesday, March 8, 2023

### What's Happening

The City of Miami Beach Public Works Department will conduct a dye test of the sewer system surrounding the Park View Island area to identify possible leaks within the system. City staff will be present while the test takes place. The public is encouraged to report any sightings of red dye in the waterway or the drainage system in the areas surrounding Park View Island. Please indicate the location, time of sighting and include a picture if possible and report it to the Control Room via email to [publicworksoptions@miamibeachfl.gov](mailto:publicworksoptions@miamibeachfl.gov) or by calling 305-673-7625,

The red dye used for the testing is safe, non-toxic, biodegradable and certified to NSF International Standard 60, test poses no harm to human health or the environment.

This initiative is one part of the overall action plan to improve water quality within Park View Canal. To learn more and provide comments about the University of Miami assessment, recommendations, and actions, please visit [www.mbrisingabove.com/waterquality](http://www.mbrisingabove.com/waterquality).

### Timeline

The Dye Tests will take place on Wednesday, March 8th, 2023 between 10 AM and 12 PM.
